Hey all

Thanks for stepping up. This is great and your write up is superb.

The preliminary water quality data from August 5 and 6 and photographs are available here:
http://epaossc.org/site/site_profile.aspx?site_id=11082

More water quality data is going to be released very soon. I'll keep you in the loop.

I may have missed some folks who were on the call. I apologize, but please pass this along.

Eric
